Churned Customers by PaymentMethod

Sum of SeniorCitizen and Total Customers by gender and Churn

Customers Churn by Internet Service

INSIGHTS

1. The company has a total customer base of approximately **7K customers**, with a churn rate of **26.5%**.
2. Customers with **Month-to-Month contracts** contribute the highest number of churned customers.
3. **Fiber Optic** internet users show a higher churn rate compared to DSL and customers without internet service.
4. Customers using **Electronic Check** as their payment method are more likely to churn than customers using automatic payment methods.
5. Customers without **Tech Support** services exhibit a higher tendency to leave the company.
6. Customers with shorter tenure are more likely to churn, while long-term customers show stronger loyalty and retention.

RECOMMENDATIONS

1. Introduce loyalty programs and discounts for Month-to-Month customers to encourage longer-term contracts.
2. Investigate customer issues related to Fiber Optic services and improve service quality to reduce churn.
3. Promote automatic payment methods through incentives to decrease churn among Electronic Check users.
4. Offer Tech Support packages and customer assistance programs to improve customer satisfaction and retention.
5. Develop targeted retention campaigns for new customers during their first year of service.
6. Regularly monitor churn trends and customer behavior to identify at-risk customers and take proactive retention measures.
